**WORLD
PORK
EXPO**

...ally for heavy-
...capacity to full
...operations and
...material bucket,
...manure, north
...design allows the
...view of all loading and
...sides.

...with the International 460, the No. 50
...a low profile unit for greatest usefulness around
...buildings and in enclosed areas. Rugged lift arms are
...formed of solid plate, high-strength steel with rigid
...cross bracing to resist the strains of charging hard,
...compacted material. With a 9-foot, 2-inch dump
...height, the No. 50 easily clears truck, wagon, or box
...sides.
